

# TRINITY CATHOLIC PRIMARY SCHOOL

Part 4: Student Welfare

Policy: **Arrangements for ill Students Policy**

## Rationale

Students enrolled at our school who suffer from significant health problems deserve and require a supportive and flexible school environment that understands and responds to their individual needs.

## Aims:

To provide a school environment that is supportive of, and responsive to, the physical, social, emotional and academic needs of students with significant health problems.

## Implementation:

- All students who are entitled to attend our school are welcome to do so.
- All students have a right to have their individual physical, social, emotional and academic needs identified and addressed.
- The parents/carers of students with significant health needs are required to meet with the Principal and key staff to develop an individual plan (PLP) that details the student's needs, as well as detailing an anticipated schedule of school or hospital attendances etc.
- Parents/carers are reminded that staff may not be qualified, competent or comfortable providing some forms of medication or support. Staff may reserve a right of refusal to perform certain medical tasks in some instances.
- All staff associated with students with health needs will be made aware of the student's condition and requirements and will be provided with professional development as required.
- Open communication processes will be put into place, including communications books and parent support group meetings (PSGs).
- Forward planning will provide flexible educational programs that can be modified or conducted at home or in hospital.
- Open communication will be maintained with educational facilities in hospitals so as to ensure a continuity of studies.
- The school will maintain appropriate contact with students during times in hospital, so as to provide social, emotional and academic support.
- The school will provide support for siblings and close friends of students with significant health needs as appropriate.
- The school will seek special equipment or facilities (ramps, disabled toilets etc) as required.
- Application will be made on behalf of students who qualify for extra funding to facilitate integration into mainstream schooling at School.
- Where appropriate dual enrolments with other specialist education facilities will be organised.
- Any student who becomes ill during the school day and unable to attend classes will be supervised in the Sick Bay until parents can take their child home. A red light shining from the Sick Bay serves to alert the supervisor that the sick bay is occupied.
- Administration staff will notify the class teacher of ill students in the sickbay.
- The design of the School means that the Sick Bay room is able to be supervised at all times.
- If required, an ambulance will be called.

## Ratification

This policy was ratified by the staff of Trinity Catholic Primary School in 2019 and will be reviewed on an annual basis or as the need arises.
